Santee Cooper Energy Efficiency/Demand Side Management Programs

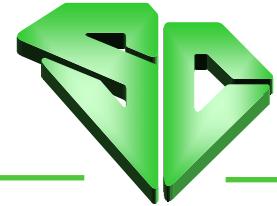

- **Overview of Santee Cooper**
- **Existing Programs**
- **Impact of Savings**
- **Future Considerations**

Overview of Santee Cooper

- **Customers Served** (as of December 2006)
 - **Direct Served Residential** **126,879**
 - **Direct Served Commercial** **29,583**
 - **Direct Served Industrial** **32**
 - **Municipalities**
 - Bamberg
 - Georgetown
 - **Central Electric Power Cooperative, Inc**
 - Residential
 - Commercial
 - Industrial
- **2006 Total Sales** **25,422 GWh**
- **System Peak Demand** **5,563 MW**

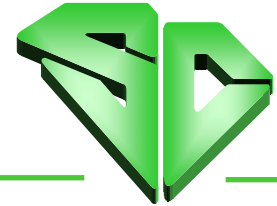

Santee Cooper Energy Efficiency/Demand Side Management Programs

- **Santee Cooper has offered to customers for over 25 years**
- **Santee Cooper makes their programs available through the state's electric cooperatives to their retail customers in addition to programs offered directly by the electric cooperatives**
- **Residential and Commercial Energy Efficiency/DSM Programs and Industrial Curtailable Contract Demands total over 650 MW, resulting in a total reduction in summer coincident peak demand of approximately 450 MW**

Santee Cooper

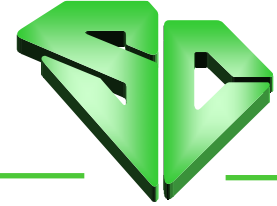

Residential Energy Efficiency/Demand Side Management Programs

<u>Program Name</u>	<u>Year Implemented</u>
Good Cents Home Program	1986
Good Cents Low Interest Loans	1982
Residential On-Site Energy Audits	1986
On-Line Energy Audits	2002
Weatherization Project	2005
Market Compact Fluorescent Bulbs	2006
H₂O Advantage Hot Water Heater (Closed)	1990
Net Billing	2007
Energy Efficiency/Conservation Advertisements	
Web Site	
Speakers Bureau	
Energy Educator's Institute	

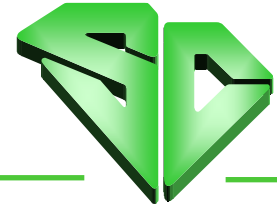

Dollars spent/credits given on Residential Programs since 2002 have been in excess of \$34 million.

Santee Cooper Commercial Energy Efficiency/Demand Side Management Programs

<u>Program Name</u>	<u>Year Implemented</u>
Commercial Good Cents	1992
On-Site Energy Audits	1984
Promote LEED Certified Construction	2006
LED Traffic Signal Rate	2002
Thermal Storage	1994
Time of Use Rate	1987

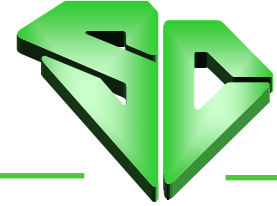

Santee Cooper Industrial Demand-Side Management Offers

- **Interruptible Service**
 - **First introduced in 1981**
 - **Interruptible on short notice for system emergencies and high power costs and limits placed on hours/days of interruption**
 - **Load under this rider is excluded from resource planning**
 - **Currently 422 MW under contract**
 - **Lower rate provided for the right to curtail**
 - **Since 2002, \$93.7 million provided in power cost savings to participating customers**

- **Economy Power Service**
 - **First introduced in 1994, 1st real-time rate in South Carolina**
 - **If and when available, fully interruptible**
 - **Load under this rider is excluded from resource planning**
 - **Based on hourly, real-time incremental cost of power**
 - **Currently 76 MW under contract**

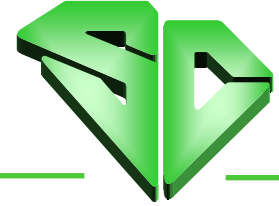

Santee Cooper Industrial Demand-Side Management Offers (cont.)

- **Off-Peak Service**
 - First introduced in 1981
 - If and when available, fully interruptible
 - Load under this rider is excluded from resource planning
 - Based on day-ahead estimates of hourly incremental cost of power
 - Currently 16 MW under contract

- **Standby Service**
 - First introduced in 1994
 - Provides standby or replacement service to customers having another source of power

Future Considerations

- **Expanding Loan Program to include Renewable Energy**
- **Purchasing High Efficiency Transformers**
- **Duct Sealing Program**
- **New/Expanded Energy Efficient Home Program**
- **Rebates for High Efficiency Heat Pumps, ACs and Water Heaters**
- **Low Income Weatherization**
